Don’t Let COVID-19 Infect You With Insurance Fraud

INSURANCEFRAUD.ORG

Workers Comp
Are employees ordered to work from home covered if injured at home? Potential fake claims to protect income may come with an uncertain economy. With fewer co-workers as witnesses, how can claims be verified?

Insurers
How will the U.S. shutdown impact loss ratios and future rates? Are insurers properly staffed to investigate massive potential fraud? Expect a major increase in duty-to-defend requests for individual and class action lawsuits arising from COVID-19 exposures.

Auto Insurance
Increased staged accidents for quick profit. Medical providers billing for services while clinics are closed. Legitimate accidents resulting in inflated claims for financial gain.

Health Insurance
What is covered under expanded state and federal orders? Up-charging or billing for phantom services to make up for lost billing days. Selling fake coronavirus insurance.

The Coalition will continue to provide updated resources and information to aid in the fight against insurance fraud. www.insurancefraud.org/cv-19
